

Graphic Designer Cover Letter

Dear Hiring Manager,

I would like to be considered for the Graphic Designer position at [Company Name]. I enjoy turning ideas into clear, eye-catching designs that support a brand's message and connect with the right audience across print and digital platforms.

I am skilled in Adobe Creative Suite (Photoshop, Illustrator, InDesign) and have a solid understanding of visual communication, color, typography, and layout. I have designed logos, social media content, brochures, banners, and website graphics, always focusing on clean design, consistency, and the purpose of the project. I pay close attention to detail, follow brand guidelines carefully, and make sure each design feels professional and on-brand.

Collaboration is important to me. I am comfortable working with marketing teams, content writers, and clients to understand their needs, ask the right questions, and turn feedback into better design solutions.

I manage my time well, handle multiple projects, and meet deadlines without losing quality.

My portfolio is attached / available at [Portfolio Link], where you can see examples of my branding work, layout designs, and digital projects.

Thank you for considering my application. I would be happy to bring my design skills, creativity, and reliable work style to [Company Name].
